## **NMPRC to host live demonstration of PRCe360 ahead of launch**

SANTA FE – Do you want to learn how to use the new [PRCe360 case management system](#)? The New Mexico Public Regulation Commission (NMPRC) invites stakeholders and the public to a live virtual demonstration during a special open meeting on Wednesday, January 21.

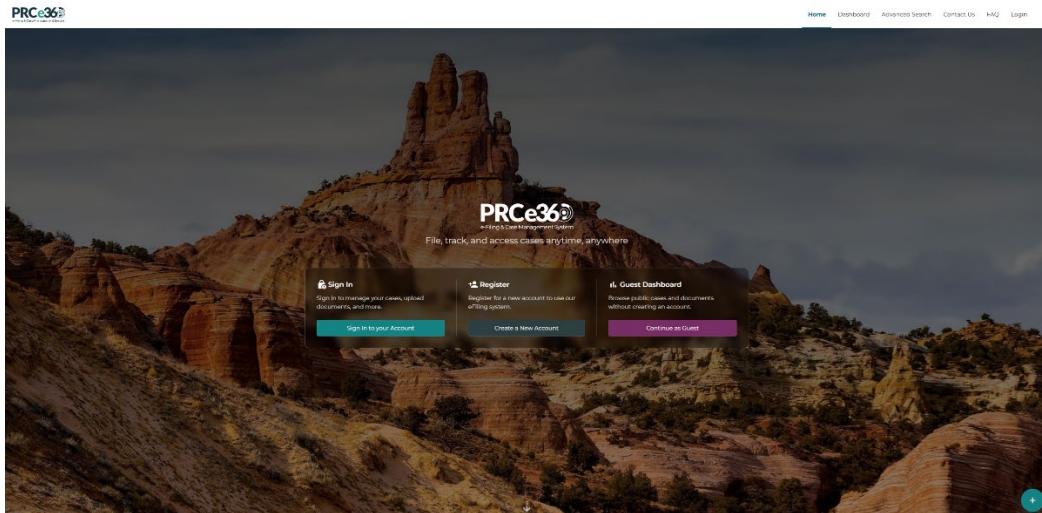

Replacing an aging e-docket infrastructure, PRCe360 is a cornerstone of the NMPRC's modernization priorities for this year. This new system features a user-friendly, three-tiered access structure designed to streamline internal processes and improve public interactions, from filing complaints to monitoring complex utility cases.

The demonstration will offer a first look at the state-of-the-art system before its official launch on January 26. Users will see firsthand how the platform simplifies e-filing, enhances public record searches, and provides real-time case tracking.
